NO. 110.

AFTERNOON DISPATCHES.

Guiteau's Only Hope of Exception.

A huge fire at Hamilton, Ohio—Another cyclone—One of the James Gang members assassinated.

Associated Press Dispatches.

WASHINGTON, April 10.—The bill of exceptions in the Guiteau case is thirty-nine pages long with thirty-two exceptions, but they are all noticed during the report of the trial and refer to the insanity of the defendant and the admission of certain evidence of expert testimony, etc.

Death of Congressman Allen. Representative Allen of Mississippi died this morning.

The Portsmouth Overdue. New York, April 10.—Commander Luce is unable to understand the postponement of the U. S. training ship Portsmouth. He has heard nothing from her since her departure from Hampton Roads.

Sympathy with California. New York, April 15.—The amalgamated trades-unions adopted resolutions declaring that as President Arthur had vetoed the bill to restrict the importation of coolies the trades-unions regard it as another evidence of the governing classes that the interests of the working population are not considered, and that President Arthur had ignored the interests of the people by protecting the interests of the Chinese Companies. Extending a greeting to their brothers on the Pacific Coast, they bid them continue their work, and assure them that victory will crown their efforts. Their platform of principles call for eight hours for a day's work, compensation to be just and fair for labor performed.

Great Fire in Hamilton, Ohio. CINCINNATI, April 9.—A great fire is now raging at Hamilton, Ohio. Three fire engines have been sent from here. A message just received by telephone says that a fire started at 10:30 to-night in the city building in High street, close to the bridge over the Great Miami. It has already consumed the city buildings and several livery stables, and under a high wind, has got beyond control. It is now, at 11:15 p. m., passing in the rear of the Presbyterian and Baptist churches and the county jail and postoffice. The greatest consternation prevails among the citizens.

Another Cyclone. ST. LOUIS, April 9.—The Hamilton fire is under control.

Visit to Asyria, Michigan, and Detroit. April 8.—Asyria, Barry county, was devastated by Thursday night's cyclone. Its track was forty rods wide. Two children of Mr. Meade were killed and another badly injured. Levi Kenson was killed. The family injured in falling from a building.

LATER PARTICULARS. CHICAGO, April 9.—Later particulars of the cyclone which swept over portions of Michigan and Kansas, indicate a great destruction of property. A great number of houses were blown down or unroofed, bridges destroyed, railroad tracks torn up and telegraph lines prostrated. At East Saginaw, Rev. Isaac Fuller was killed. Much damage was done near Des Moines and several persons injured. At Fort Riley, Kansas, most of the buildings were unroofed. The damage will reach \$300,000.

Mormonism vs. Polygamy. ST. LOUIS, April 10.—A Mormon conference now being held at Independence, Mo., is making vigorous war upon polygamy, and has unanimously adopted a resolution thanking President Arthur and Congress for passing the Anti-Polygamy Bill.

Logan Seriously Ill. ST. LOUIS, April 8.—Senator Logan is so sick he cannot go to the Hot Springs.

James' Friends Got Him. KANSAS CITY, April 9.—It is reported that Tom Bush, convicted of participating in the Glendale train robbery, and who was pardoned out to testify against Bill Ryan, was assassinated some ten days ago in Kansas. The James gang had sworn to take his life, and it is supposed they have accomplished their threat.

Farther from the Kansas Storm. McPHERSON, Kan., April 9.—The storm of Friday night blew down a stone house in Delmar township, in this county, in which Wesley Bryant and family resided. Mrs. Bryant and two children were buried in the ruins, and were dead when taken out.

COAST TELEGRAMS. Rev. L. Hamilton, of Oakland, died in the harbor.

SAN FRANCISCO, April 9.—Rev. L. Hamilton, of Oakland, died in the harbor. He was a member of the Independent Church at Oakland, died suddenly this forenoon while preaching. During the discourse he paused, and sinking slowly in the pulpit died in a few moments. He leaves a wife and two children. His death is supposed to have been from heart disease. About eight years ago he withdrew from the Presbyterian Church and established what is known as the "Independent Church." He was well known on this coast.

NO INFORMATION FILED SUNDAY. There were no squads of police out today taking testimony against violators of the Sunday law. There are over one thousand cases already to be tried in the courts of the city, and the authorities concluded that further arrests would be useless until some disposition were made of the cases on the docket.

TO DEVILS MEANS. A resolution was adopted at the meeting of the Trades Assembly calling for a general convention to be held in San Francisco April 24 for the purpose of devising some plan to rid the community of the presence of the Chinese. A suitable call has been prepared addressed to the people of the Pacific Coast States and Territories.

Arrests Made Again. PASADENA, April 10.—The stage was stopped by three masked men on the night of the 7th, near Turkey Tanks, north of Prescott, on the Atlantic and Pacific railroad. The robbers took money and valuable baggage from the passengers. This is the second robbery inside of one week.

A NEW USE FOR DYNAMITE.

[Little Rock Democrat.]

After a long search we found what is known as the "Old Jackson Copper Mines," situated on the rolling fork of Little river, Sevier county. On the morning of the 18th of December last we commenced cleaning out an old shaft, and when about fifty feet deep a large rock was removed by Mr. Thompson, and before it could be raised to the top of the head of a monster rattlesnake peered from the opening made by the removal of the rock, and before the snake was killed we found them breaking in upon us from other portions of the wall, and from their hissing and rattling and onward march upon us retreat was our only safety. With rocks, shot-guns and revolvers we battled with the enemy, managing to keep them all within the shaft; but with all we could do it was impossible to destroy them, and a half-pound stick of dynamite was charged and thrown in their midst, and when the smoke cleared away, victory was ours, and all those that were not entirely destroyed retreated, as the talk of several were seen protruding from the wall.

Words can not describe the picture presented, and the opinion of all was that at least fifty of these huge reptiles had been killed; but when counted only eighteen rattles and one black snake, with the remains of a half dozen more shattered and scattered by the explosion, were the result of our hard-earned victory. The snakes were the largest of the species I have ever seen—the smallest one measuring four feet seven and a half inches, and the longest one inch less than seven feet. The least number of rattles was twelve and the greatest twenty-three, and the weight of the largest rattlesnake was twenty-six pounds and four ounces. The black-snake was perfectly immense, but we were unable to get its exact length, as a portion of his body was torn off and thrown seaward by the dynamite, but eight feet of this monster still remained with his strange associates.

About Crows.

Prof. Linden said a good word the other day at Buffalo for that much-persecuted bird, the common crow (*Corvus Americanus*). The crow of America belongs to a scattered family of two hundred species, including among them the buzzard, jay, raven and magpie. Of the genus proper to which the crow belongs, seven examples are found in the United States, the great black raven being at the head of the list, and about one hundred miles from Buffalo, on the shores of Lake Ontario, ravens were found. Their nests were so excluded as rarely to be discovered. So wary were the birds that Mr. Linden had to wait for a long time before he was able to secure a specimen. They were reported more abundant on the Canada shore of Lake Ontario, but it was impossible to procure a specimen even there, though a liberal reward had been offered. The crow was only present from annihilation by its great cunning. Even in captivity the bird displays a degree of sagacity which almost resembles human intelligence. Mr. Linden admitted that the crow could hardly be called a sweet singer, still, when tamed, he made an interesting pet. On the whole, he might safely be set down as a useful bird and a real friend of the farmer. He eats large quantities of noxious insects, and though he has a bad habit of pulling up young tender shoots of grain, it was a question whether the damage was not more than compensated by the number of larvae of beetles thus brought to the light and destroyed.

A Golden Deed.

It was during the war that raged from 1855 to 1860, between Frederick III. of Denmark and Charles Gustavus of Sweden, that, after a battle, in which the victory had remained with the Danes, a stout burgher of Edensborg was about to refresh himself, one setting to have his wounds dressed, with a draught of beer from a wooden bottle, when an imploring cry from a wounded Swede, lying on the field, made him turn, and with the very words of Sidney, "Thy need is greater than mine," he knelt down by the fallen enemy to pour the liquor into his mouth. His requital was a pistol-shot in the shoulder from the treacherous Swede.

"Rascal," he cried, "I would have befriended you, and you would murder me in return. Now I will punish you. I would have given you the whole bottle, but now you shall have only half."

And drinking off half himself, he gave the rest to the Swede. The king, hearing the story, sent for the burgher and asked him how he came to spare the life of such a rascal.

"Sire," said the honest burgher, "I thought never kill a wounded enemy."

"Thou meritest to be a noble," the king said, and created him one immediately, giving him as armorial bearings a wooden bottle pierced with an arrow! The family only became extinct in the person of an old maiden lady.

"THE BEER."

A Laramie Party as Described by Bill Nye's Boomerang.

A New Departure in Social Customs—What the Gentlemen Were and How They Departed Themselves.

Last evening's entertainment at the residence of Mr. R. Marsh was one of the most elaborate affairs, both in point of amusement and the costumes displayed by the guests, that it has been our good fortune to attend.

The hour fixed for "the beer," as it was called, to distinguish it from "the coffee" in vogue among the ladies, was 7 to 9, and at about 7:30 the guests began to arrive. The host was arrayed in a diagonal suit and brown moustache, and had made every possible arrangement for the comfort and enjoyment of his guests.

Messrs. Sprague, Iverson, M. H. and A. W. Mills, Marshall Schmitzer, Dr. Gunster, Harper Stryker, Heath and Nichols were dressed in plain black.

Mr. Otto Gramme wore a tuck-ham coat, pantaloons and vest of Michigan gunnysack, with inland sole leather buttons. His tie was deep-red satin, and his sole ornament was a large solitary diamond, made of the bottom of a glass tumbler set in sheet iron. His plug hat was cut two sizes too large, so that it would fit him all right this morning. His hair was parted in the middle with a damp towel.

General Nock wore a spike tail coat of gross grain green d'arme blue, with scarlet silk facings, and buttons made of inch-and-a-half cork, with old brass settings. He also wore a white vest with same style of buttons, and pantaloons with old gold suspender. As a charm he carried with him a large, irregular shaped nugget of Lorrillard's plug tobacco.

W. C. Wilson, Jr., was dressed in calico swallow-tail coat, a la mode, and loose Turkish trousers, the legs of which were constructed of different styles of material. He had the appearance of a young man who had been turned loose in an attic and been allowed to dress in the dark. He also wore a pretzel as a bouquet.

Mr. Strymer wore a buckskin-colored business suit with the tails of the coat caught back with two-inch braid and glue.

Mr. Gregg wore plain black, with canton flannel sunflowers and yellow glow. His hair was carefully combed and the bridge of his nose and held in place with mullage.

Mr. Gibbon wore a suit of almost pure white, conveying the impression that he had overslept himself and when he awoke and saw how late he was, that he had jumped out of bed, put on his plug hat and started. His hair and whiskers were parted in the middle.

Mr. Nye wore a Prince Albert coat with the tails caught back with red yarn, and home-made sunflower. He also wore a pair of velvet knee-breeches, which, during the evening, in an unguarded moment, split up the side about nine feet. This, together with the fact that the elephant of this long black stockings got caught on the top of a window cornice, tearing a small hole in it, letting out the sawdust and baled hay of which he was made up, seemed to cast a glow over the countenance of this particular guest. With one large, voluptuous calf, and the other considerably attenuated, Mr. Nye seemed more or less embarrassed.

Mr. Van Kuran was dressed as Oscar Wilde, and with his elegant aesthetic costume, and carrying a large lily in his hand, he was unquestionably the belle of the ball.

Mr. Dyrart wore white knee-breeches, coat, spike-tail and very breeches costume generally.

Mr. Williston was attired mainly in a long duster, with large cream-colored tissue paper cravat, colored eye-glasses and canton flannel plug hat.

Mr. Backus wore a long duster and paper sunbonnet.

Mr. Wagner wore a plaid suit corded, and striped hose, displaying the faultless proportions of his limbs.

Mr. Reger was attired in a long all-wood, three-ply dressing-gown, and slippers and cap de nuit.

Mr. John Guenster was dressed in plain black, with enormous bouquet of tropical flowers, and hair parted in the middle.

At nine o'clock a party of ladies in costume visited the scene, and remained until the close of the ceremonies, about twelve o'clock.

This very novel and unique idea of an entertainment of this kind originated with Mr. Marsh himself, and those who partook of his hospitality last evening, were unanimous in the opinion that it was a dazzling success.

Those who point out a large stack of empty beer bottles in the way connected with the programme last evening, do the gentleman present great injustice.—Bill Nye's Boomerang.

SCOTSMEN NOT ADMITTED. Why the King of Scotland So Deceitful.

Long years ago, in times so remote that history does not fix the epoch, a dreadful war was waged by the King of Scotland. Scottish valor prevailed; and the king of Scotland, elated by success, sent his minister, Lord Alexander, "Well, Sandy," he says, "is there ne'er a king we can conquer the noo?" "An' it please your majesty, I ken o' a king that your majesty canna vanquish."

"An' who is he?" "The King of Heaven," said the king of Scotland, "The King of Heaven?" "The King of Heaven," said the king of Scotland, "The King of Heaven?" "The King of Heaven," said the king of Scotland, "The King of Heaven?"

One evening, soon after my arrival in eastern Asia, and while the five elephants were as usual being led opposite the bungalow, I observed a young and lately caught one step up to a bamboo fence and quietly pull one of the stakes up. Placing it under foot, it broke a piece off the stake, and after lifting it to its mouth, threw it away. It repeated this twice or thrice, and then drew another stake and began again. Seeing that the bamboo was old and dry, I asked the reason of this, and was told to wait and see what it would do. At last it seemed to get a piece that suited, and holding it in its trunk, it quietly stepped the piece forth, and quietly pulled one of the stakes up. Impromptu Ceremonies at the Catholic Cathedral—The Episcopal and Methodist Services.

Easter Sunday was celebrated by the various churches of Los Angeles with more or less ceremony and attention.

THE CATHEDRAL.

The Santa Vibiana Cathedral was filled by an attentive and devout congregation. Bishop Mora conducted the Pontifical mass, assisted by three priests. The choir had in addition a clarinet, bass viol and three violins, whose music, together with that of the great organ, was sublime. Beethoven's mass in C was rendered by the choir, among which the voices of Mrs. O. W. Childs, Dr. Fernandez and Mr. F. J. Fanning could be plainly distinguished.

Rev. Father Richardson, of St. Vincent College, preached on the subject of the Resurrection from the text in the gospel of Mark: "He is not here, He is risen." Father McNamee read a pastoral letter in Latin, Spanish, and English from Archbishop Almaraz, and Bishop Mora gave a short exhortation in Spanish and English to the church. At

THE EPISCOPAL CHURCH.

Episcopal, regular Easter services were held. The auditorium was beautifully decorated. A hymn of calla lilies and evergreens, worked into crosses, arches, fonts, wreaths, festoons and other elegant designs. Back of the pulpit was a beautiful red cross. The services opened with the Easter Anthem, "Christ the Passover is Sacrificed for Us." Then followed the festival Te Deum, and the two Easter hymns, "Our Strife is O'er," and "Hail Forth, Forth, Forth, Name." The chief attraction of the day was the solo offertory by Miss Mamie Perry. She sang in a simple, unaffected way, not a note being missed, but every one being given in a full, pure, rich tone that filled the whole church with its sweetness. Mrs. Mayo, Mr. Abernathy and Prof. Fiske

participated in the offertory. The pastor, R. V. Elias Birdall, preached on the resurrection from 1 Cor. 15: 32.

LUGO DISTRICT.

An Interesting Lyceum Meeting—Recitations and Debate.

The Lyceum Lyceum and Literary Society held an unusually interesting session on Friday evening, at which there was a large attendance. Recitations by Thomas Neese, Nora Bellwood, Janie Miller and Ida Jacobs were well rendered. Declarations by Alex Rhields and Charles Nickerson were well delivered, and showed care in selections and attention to the ideas of the authors.

Miss Shear favored the society with a select reading. All were much amused in listening to the recital of the woes of an Irish servant girl in a Yankee family, which was given by Mr. Turner in a manner which elicited applause.

The debate upon the question—"Resolved: That the law inflicting the death penalty is cruel and should be abolished," was ably debated by Mr. Lucas upon the affirmative and Theo. S. Shaw upon the negative, in an earnest, forcible manner, and of considerable length. Mr. Joseph Lucas upon the affirmative claimed that the infliction of the death penalty was wrong in principle and did not detract from crime; that the commission of crime was rare in states and countries where it had been abolished; that the State had no right to inflict the death penalty, and that innocent persons were often executed.

Mr. Theo. Shaw, upon the negative, defended the justice and wisdom of the law which inflicted the death penalty, and claimed that the State had a right to create for an existence without end by society in the aggregate, was dependent for existence upon the security to life and property of all its citizens, and by laws controlling the criminal element of society, with penalties attached, which were graded in proportion to the enormity of the crime, alone could society exist; that several States, having abolished the law inflicting the death penalty, had been obliged to return to it again; that the certainty of the infliction of this penalty had in every community prevented the higher crimes.

The Society is increasing in membership and awakening much interest. Mr. A. M. Neese, a member of the great fraternity of farmers, is President, and presides over the meetings of the Lyceum with dignity and ability.

By THE SECRETARY.

THE NORMAL SCHOOL.

Superintendent Nease Makes a Report—Other Matters.

The Board of Trustees of the State Normal School met in San Jose last Saturday, and transacted the following business relative to the Branch Normal School here:

KENT'S REPORT.

LOS ANGELES, April 1, 1889.

To the Board of Trustees of the State Normal School—GENTLEMEN:—Since my last report I have completed the brick walls of the second story, put in place the floor joists, and have the roof on second story, and put in the boards for deafening in principal floor. I have also built about half of the attic wall in front of the building, and shall commence to put the roof on the same next Tuesday. If the weather remains good I shall complete all walls next week. The gas pipes will all be nearly all laid, and about fifty barrels of lime made up for plastering, and am adding to it every day. The plaster and shingles have been delivered.

Changes in partitions suggested by Prof. Braly. All of which I respectfully submit.

S. H. Kent, Supt.

A communication was also received from Mr. Kent asking for permission to sell certain horses now being used by him, and calling attention to the need of glass and heating apparatus.

On motion Mr. Kent was authorized to sell said horses.

The matter of glass being taken up, Gov. Perkins said he thought it could be purchased cheaper at home than at San Francisco houses.

On motion the Secretary was authorized to advertise in the San Francisco Alta-California and a Los Angeles paper for bids for furnishing glass for the Branch Normal School.

The matter of purchasing a heating apparatus for the Los Angeles School was referred to the Executive Committee with power to act.

ENGLISH ARTISTS.

A New Kind of Painting on Glass—Something New Needed.

A Times reporter yesterday paid a visit to Mr. Robert Renahaw, late of Manchester, England, at his studio on New High street, at the head of Short street. Mr. Renahaw was born and brought up in Manchester, and lived there till last November, when in company with other friends he moved to Los Angeles. He is a lithographic printer, besides being a finished artist, and for artist purposes he is at present engaged in painting designs upon glass doors and windows. Specimens of his work may be seen on the front door of J. W. Ellis' new house at the corner of Third and Olive streets. Another sample is a crest of an American eagle and Canadian beaver on the transom of Mr. Renahaw's front door on Short street.

Mr. Renahaw is at present drawing up designs for painted windows for two churches at Riverside and the new Presbyterian church here, which designs are very beautiful. Mr. Renahaw likes Los Angeles, and expects more of his friends from England to settle here.
